TO WHOM IT MAY BE RELEVANT

This serves to confirm that Lennis (M.J.) van Schalkwyk performed services to me as a Land Surveyor over a 14 year period spanning from 1992 until 2006.

The nature of the services covered 9 separate transactions spread out over the 14 year period involving a turn key solution for the sub-division and consolidation of the 9 different rural properties, I acquired in the Mpumalanga provincial of South Africa.

This also included the whole process of procuring the necessary approvals from all the Government departments more importantly the Department of Agriculture, the Office of the Surveyor General and the Local Roads Authorities.

Through all these transactions, I experienced the services provided to be focused on my requirements, ie. the expeditious procurement of the necessary approvals and a commercial approach when stumbling blocks were encountered along the way.

I have no hesitation in recommending Lennis (M.J.) van Schalkwyk to any person who require the services of a Land Surveyor.

Yours faithfully

D P Uys
